Summary of Qualifications

- ◆ One year of experience in front end web development working with a diverse set of languages and clientele.
- ◆ Over two years of experience in production and design with various product lines in print and web.
- ◆ Proficient with multitasking and handling multiple projects for a diverse range of clientele.
- ◆ Continual learning and growth through improving my strong conceptual and creative design background.
- ◆ Languages: HTML, CSS, SASS, Javascript, jQuery, PHP, MySQL, and Git
- ◆ Technology: WordPress Theme Development, Wordpress Plugin Development, the Adobe Creative Suite, Google Drive, Gmail, PHP Storm, Grunt, Gulp, Version Control, and Social Media.

Education

Minneapolis Community & Technical College, Minneapolis, MN **2015 - 2017**

Major: Graphic Design: Web and Interactive Media

Member of Student Design Collective and City College News

Recipient of the Kopp Presidential Scholarship in spring 2016 and nominated twice for best of City College News

The Atelier: Studio Program of Fine Art, Minneapolis, MN **2005 - 2009**

The focus was primarily placed in a discipline and teaching of well constructed realistic pictures — in the mediums of charcoal, pencil and oil.

Experience

Designer & Developer

Wollin Design and Development

May 2010 - Present

Minneapolis, MN

Lorenzo Ovens; www.lorenzo-ovens.com

January 2017

- ◆ Designed, developed a website and social media for Lorenzo Torregrossa by using the Adobe Creative Suite for wireframing and design, creating a custom WordPress theme using HTML, CSS, SASS, Javascript, jQuery and customized PHP in order to showcase his work and create sales leads for his business.
- ◆ Designed various print related collateral for Lorenzo's on-site location — such as outdoor banners, business cards, menu boards and flyers — by using InDesign, Illustrator, and Photoshop for promotional efforts leading to more exposure, along with finding printing prices that matched Lorenzo's budget.

Web Essence Online

May 2010 - April 2014

- ◆ Collaborated with a web designer/developer and digital marketer for small businesses in order to create website graphics and illustrations on various websites for branding and identity.

Front End Development Intern

Fjorge Digital

March 2017 - Aug. 2017

Minneapolis, MN

- ◆ Completed website maintenance and enhancements for client WordPress and Drupal websites by troubleshooting with HTML, CSS, SASS, Javascript, jQuery, PHP and MySQL and browser inspectors.
- ◆ Performed quality assurance for front end developers by comparing websites and mock-ups to ensure consistency across different browsers and devices for client satisfaction.

Graphic Designer

City College News

Feb. 2016 - May 2017

Minneapolis, MN

- ◆ Created an efficient workflow by designing reusable templates, assets and layouts with InDesign in order to meet tighter deadlines while the news team was expanding its team and adding more content and features.
- ◆ Established unity for the city college newspaper by creating an overall style guide by using repeatable headers, fonts, colors and other design elements within InDesign.
- ◆ Collaboration between team leaders to create more appealing features by brainstorming ideas on layouts and different content.
